

Hydrant Flushing Program Beginning May 1st

From May 1- 15, hydrant flushing, with weather permitting, will occur between the hours of 6 AM to 3 PM and will continue until all portions of the water distribution system are completed. Signs will be posted throughout the Village while hydrant flushing is underway.

Flushing is an important preventative maintenance process and is undertaken to remove particulate matter and corrosion from the system. Residents may notice a slightly lower pressure and discoloration of their water throughout the duration of the program; however, the water will be completely safe to drink. Residents are advised to check the color of the water before beginning laundry for any discoloration.

Should any resident have concerns regarding the flushing program, they may contact the Department of Public Works Utility Division at 847-279-6900.
